

## Saunterings

From Where The West Begins.

By JOHN T. MEYERS.

WEDNESDAY was the 99th anniversary of the historic Fall of the Alamo. The deeds of the small band of brave Texans under command of Col. Travis, who fought gallantly to the last man, against the overwhelming Mexican forces under General Santa Anna live forever in the hearts of native Texans.

The following letter written by Travis explains the spirit and patriotism of the brave leader of the men who gave their lives that their beloved Texas might have freedom: COMMANDANCY OF THE ALAMO, Bejar, Feb. 24th, 1836.

To the people of Texas and All Americans in the World—

Fellow Citizens and Compatriots—I am besieged by a thousand or more of the Mexicans under Santa Anna—I have sustained a continued bombardment and cannonade for 24 hours and have not lost a man—The enemy has demanded a surrender at discretion, otherwise, the garrison are to be put to the sword, if the fort is taken—I have answered the demand with a cannon shot and our flag still waves proudly from the walls—I shall never surrender or retreat. Then, I call on you in the name of Liberty, of patriotism, and everything dear to the American character to come to our aid, with all despatch. The enemy is receiving reinforcements daily and will not doubt increase to three or four thousand in four or five days. If this call is neglected, I am determined to sustain myself as long as possible and die like a soldier who never forgets what is due his own honor and that of his country—VICTORY OR DEATH.

WILLIAM BARRET TRAVIS.

Lt. Col. Comdt.

P. S.—The Lord is on our side—When the enemy appeared in sight we had not three bushels of corn—We have since found in deserted houses 80 or 90 bushels and got into the walls 20 or 30 head of Beeves.

TRAVIS. The original of the above letter is now in possession of the State Library at Austin, Texas.

THE only survivors of the bloody massacre of Alamo, according to a Texas history, were Mrs. Dickinson, wife of a Lieutenant, and her infant daughter, Mrs. Aubrey and child, of San Antonio, Mexican woman, and a negro servant of Col. Travis.

IN THE very heart of downtown San Antonio the sacred Alamo still stands today. Its spacious courtyards are surrounded by crumbling walls. Inside the Alamo visitors from all parts of the world recently view the immortal spot where Travis drew a line with his sword when defeat seemed inevitable, and said, "Those who wish to die like heroes and patriots, come over to me." Colonel Bowie, too ill to rise from his cot, begged to be carried across the line.

BEVERLY Allison, 11-year-old San Antonio boy proved himself a hero when he rescued a 9-year-old girl playmate from a live electric wire that held her fast as she climbed on a tin roof to get a ball. Both children were taken to the hospital for burns, and will recover.

On Sunday night, Walter Winnell, famous New York columnist, launched the youth's heroism over a national radio network.

There is a proud mother nanny goat in San Antonio. She has three 'kids'... triplets if you please. Quite a rarity, we are informed.

A Chinese named One Shirt Shy acted as interpreter at a court trial. We can't help thinking the name would be most appropriate for some Chinese laundry owner.

J. A. Gym debt fund.

At the appointed time, 8:30 o'clock, fifteen maids of honor, belonging to the court, walked from the entrance of the hall to the stage where the royal throne had been built. Here the king waited for his queen and dukes awaited their maids.

Following the ascent to the throne Miss Marie Bertrand, last year's queen, appeared from hidden recess, escorted to the stage by Mr. George R. Rea, general chairman of the ball. Miss Bertrand's beauty of striking brunette type, was enhanced by a coronet of gold and brilliant, wearing a shoulder mantle of silver cloth. Her dress was cut low and the bodice rimmed with gold metal open work. Her flowers were Pernet (yellow) roses, tied with ribbon, which she carried as an arm bouquet. She was preceded by four pages in white satin and gold trimming.

### The Queen Enters

To the strains of the orchestral march the beautiful young queen of that glorious blonde type, finally appeared, radiant in the loveliness of beauty and simple but rich costume, escorted by Chas. G. Moreau, king of last year's court. She was arrayed in a dress of silver cloth and carried a bouquet of pink Killarney roses, held with long streamers of ribbon. Her mantle was of cloth to correspond and fell in demi-train, gracefully and effectively. Her crown was of gold and precious stones. And her sceptre was of gold and rhinestone.

She was received at the stage by the King, garbed in the regulation court robes and mantle. His suit was of silk dressed designs and his mantle of red satin trimmed with ermine. His crown was of gold and heavily studded with jewels and sceptre to match. The king was most courtly. And his majesty carried himself with becoming dignity and charming grace.

At the arrival of the royal party the curtains were drawn and soon parted again, after which the formal march of the evening took place, when the king and queen would meet and salute their subjects. Rounds of applause greeted the monarchs and party. Line of march consisted of King and Queen for '35, four pages, King and Queen, '34, preceded by four pages. Then maids and dukes.

Chairman Rea announced the first five dances were for members of the court only. Bob Schafer and his orchestra was at the door was assisted by Messrs. W. L. Bourgeois, H. Grady Perkins and Thomas Smith.

## BIDS FOR SHORT CUT MARCH 27

Contract Will Call for Hard-surfacing New Stretch—22 Miles Travel Cut

Baton Rouge reports that the Louisiana Highway Commission is, after many months delay, planning to carry out an agreement between Mississippi and Louisiana calling for the hard-surfacing of the "air line" highway between Pearl River and Bogalusa, this short cut cutting 22 miles from the distance between New Orleans and the Coast.

The Louisiana Commission will receive bids March 27 for surfacing of the Louisiana section of this short cut.

Bay-Waveland section particularly has looked forward with anticipation for the date. It means work of hard-surfacing and putting the new short-cut stretch into use. Thousands from New Orleans and elsewhere will travel between that city and the Gulf Coast additionally and thousands will make more frequent trips.

The Mississippi Coast Welcomes the announcement. In practical effect, completion and surfacing of this road would put the Coast a half-hour or more nearer to New Orleans, which should mean a substantial increase in the number of New Orleans residents driving to the Coast on holidays and summer week-ends. Coast business of all kinds would benefit.

The Coast is also interested in the rapid and systematic paving of U. S. Highway 49 between Jackson and Gulfport. Completion of every new link in this road increases the number of people from that section who visit the Coast often for recreation. The happy prospect is that the road will be paved entirely from Jackson to Gulfport by the end of the year.

## DAMAGES FOR CHIEF OF POLICE

Federal Court Jury at Biloxi Awards W. T. Hobbs \$3,225.00 in \$25,000 Suit Vs. L. & N. R. R.

Jury in federal court at Biloxi Friday, March 1, returned a verdict in amount of \$3,225.00 in the damage suit filed by W. T. Hobbs, Bay St. Louis Chief of Police, versus Louisville & Nashville R. R. Company. Amount sought by plaintiff was \$25,000.00.

It appears on the night of November 23, 1934, at about 6:30 o'clock, while on the rounds of duty, Chief Hobbs was walking along and later across the railroad tracks of the L. & N. Company, in the vicinity of the round house grounds, when he suddenly fell into an open cinder pit, that it was brought out in the trial, had been left open while not in use. This pit is approximately 30 inches deep, cement bottom, and not in use contained no hot coal or ashes.

Mr. Hobbs fell forward then downward. He claims he was severely injured with fracture of the left leg, below knee, and chest also injured by his fall forward. He was also severely injured about the left hip. Unable to help himself he was assisted in being taken out of the pit by John Adams, yard worker, Mark Oliver, of the city police, and two other cutters. He remained in bed 21 days, he says, and was on crutches for a period of 60 days.

Judge Holmes was the trial judge and Attorney Carl Marshall represented the plaintiff, while the defendant's chief counsel was Harry Smith of Mobile.

The jury it appears based its damages on a proportionate damage of the injured man, that is, \$25,000 for total disability, and \$3,225 for partial injury.

No notice of appeal has been filed but the time for such action on part of the defendant remains open. The jury was composed of men entirely unknown to the contending forces, called from the interior of the State and principally farmers, it was stated.

Chief Hobbs said he was satisfied with the verdict and would not appeal therefrom.

## NEW ORLEANS AND THE MARDI GRAS

NEW ORLEANS is famed for many things. Its proverbial Southern hospitality, culture and every element that means for refinement and standing. Its Mardi Gras is known world-wide. It is an institution. And each and every year thousands of visitors flock to the Southern Mecca for its Shrove Tuesday celebration.

Crowds the last ten years have not broken any record. On the contrary, attendance has shown a decline. But this year it is conservatively estimated that the season saw two hundred thousand visitors within the gates of the Carnival City. New Orleans is lavish in its entertainment. Ever since the occasion of the Twelfth Night celebration, following New Year's the season has been on. All votaries of entertainment and pleasure have been in action. There has hardly been a cessation the last two or three weeks. Every evening has brought forth some ball or other affair of the season.

An innovation this year was the Junior League first annual Carnival ball, open to the public, that is, admission by the price of a ticket while all other functions are exclusive, that an invitation is the only means of admission into this rather exclusive circle of the various mystic krewes. This year, however, it was planned as early as last year that such a ball would be given and made possible to visitors and others to gain admission. This proved quite a success.

It is a source of satisfaction to learn the Carnival season this year went over big. Mardi Gras Day was one of crowds of maskers and visitors akin to that of other years. New Orleans and her people who work indefatigably toward this end are to be congratulated on their success.

## WHAT NEXT WILL CANDIDATES PROMISE?

THERE are already quite a number of avowed candidates for governorship of Mississippi but they seem rather shy in coming out in the open. Is it a lack of platform or issues? Heretofore campaigns have been predicated on many issues. All are threadbare. Free school books, lower taxes, reductions in this and reductions in that are all of the past.

Every sane tax-payer knows that whatever is advocated, especially things that are promised to be had free, ultimately come from the tax-payers pockets. There is nothing free.

What can the poor candidate promise? He has run the gamut of free libraries, hospitals, educational buildings, highways and whatnot. There seems nothing left to promise the dear people.

We cannot lower our taxes with a heavy bonded indebtedness unless we default on payment. When a candidate makes such generous promises and offers to give something for nothing he is simply lying. It might be well to steer clear.

We want honest men, business men. Men who will do their work interpretively and constructively, giving the State such services as they are expected, and full measure at that. All pre-election promises are the rankest bunk. It is an insult to man's intelligence and no voter should entertain the demagogue.

## NOT A DARNED NICKEL COLLECTED

A country doctor down in Marion county, says the Jackson Daily News, writes:

"I have no connection whatever with the post-office department, but I am having a lot of experience with rural free delivery. Have delivered twenty babies since January 1st and thus far have not collected a darned nickel on either of them."

Let's get busy this spring and make Bay St. Louis more attractive than ever.

If they build automobile trucks any bigger the average family will have to take up flying if they want to go for a pleasure trip.

Take time off to give your personal support to some of the organizations and associations that are working to improve Bay St. Louis.

Gulfport daily press and New Orleans press as well, under Gulfport date line, gave much prominence to a list of robberies in that city. Aside from a coach auto stolen the long list of things reported missing are of comparatively no value. It strikes us as rather poor advertising for the Mississippi Gulf Coast, especially when such stories are featured.

To some people the spending of money by others for pleasure registers resentment. From what feeling this spirit is born we do not know. However, people who are able and spend their money in entertainment and the like are benefactors. They spend their money. It benefits the many who thereby procure additional employment and the tradesmen who sell their products. The disposition to ridicule and make light of those able to spend is by far a mistake and the pity is that it is so common.

## DELINQUENT TAX LIST TO BE PUBLISHED ON TIME.

ACCORDING to information from Jackson there will be no postponement of land sales for delinquent taxes in Mississippi this year. Chairman Alf H. Stone of the State tax commission announced in a formal statement issued following a conference with Governor Sennett Conner and Attorney General Greek L. Rice, whose approval would be required for such postponement.

Chairman Stone stated that although many requests have been received for postponement, it was found that "no grave public emergency exists in Mississippi" that would warrant such action.

Part of the statement follows, and the point is well taken:

"We advise that in the event lands in any county are not sold on the first Monday in April, as provided by law, the board of supervisors is authorized to fix a later date for sale of such lands."

"Much more is involved in declaring the existence of a grave public emergency than the postponement of a tax sale of land," the statement said. "Our experience shows very plainly that action taken by us in the case of a small group of counties will require similar action with reference to a larger number, if not most, of the counties of the state."

"The cumulative results of such procedure would inevitably affect the credit position and general standing of individual counties and of the entire state, and of private business as well. For the governor, the attorney general and the chairman of the tax commission to declare officially that Mississippi is now facing a 'grave public emergency,' would create a feeling of distrust and uneasiness in the public mind, both within the state and beyond its borders, which would do far more harm than could be counterbalanced by postponing delinquent tax sales. x x x

From the above it will be noted there will be no postponement and tax payers will do well to pay their taxes or they will be published as delinquents in April. Last year publication was in September. Delinquent publications carry several damage charges.

## A "SCOOP" WITHOUT CREDIT

FROM News-Week, weekly chronicler of events, comes the story of a "scoop," dear to the heart of newspaper men everywhere.

Two men were to be executed in Richmond, Va. "Just 1 hour and 50 minutes before the condemned pair went to their deaths" the six A. M. edition of Hearst's Washington Herald ran a grisly tale of the execution. "Minute details told how a condemned negro prisoner sang spirituals while the two walked their last mile," how one of the execution jury "who asked his name be withheld" reacted to the macabre sight."

Naturally critics of Brother Hearst's journalism pointed with glee to the "astounding performances." Such disclosures do nothing to enhance the prestige of American newspapers although undoubtedly such stunts are pulled in other offices.

However, the reader of a newspaper who gets such a fake is entitled to complain. More than this, somebody, ought to pass a law to protect everybody from such frauds and, while at it, there ought to be provided some punishment for the perpetrator of so-called personal stories by people who never write them.

Newspapers like The Sea Coast Echo would suffer irreparable damage if found guilty of such trickery. As a class the so-called small-town press can show the metropolitan screamers a lot of honesty and truthfulness.

## FIRST ALWAYS THE TRUTH

TO the school children of Hancock county we address this word:

If you have become convinced that you know the truth about anything, stick to it.

Maybe, your relatives and friends will laugh at you. Maybe, not. It doesn't make much difference unless you let them get your goat. All great things have come from the courageous struggle of brave souls in the face of derision and discouragement.

The world talks very glibly about wanting the truth, when oftentimes, it is the last thing that people want to know. However, make up your minds to serve the truth always, seeking it out at all times and following it wherever it may lead you. Hold fast to your faith in yourself and tie-up with the light that comes to your soul.

## WHAT TO DO FOR BAY ST. LOUIS

WHEN the average citizen of Bay St. Louis begins to think about its future he realizes that his own economic success depends, to a great measure, upon the prosperity of his neighbor, and the growth of his town.

To realize what he ought to do, in helping Bay St. Louis forward, he has only to ask himself what he expects of his fellow citizens. What is it? To trade with him to overlook the shortcomings in his business due to his location and through their co-operation to help him render them better service.

Then, to be a loyal booster of Bay St. Louis all that is required of the average citizen is that he treat his neighbor, and his neighbor's business, in the same way that he wants his neighbor to treat him and his business.

## UNDERSTAND THE SEXES

MEN who are sure they understand women are as foolish as the women who say they understand men. Whenever the members of one sex completely understand the members of the other it will be good-night as far as the so-called human race is concerned.

The mere fact that some individual specimen of a sex makes a fool or a monkey out of a group of the opposite sex is no sign that the inciting party understands them. Very often, it is only a sign that none of the group involved has evolved further than the monkey stage.

## CAPITOL ACTIVITIES

(By Walker Wood, Secretary of State)

D. R. M. Acker, superintendent of the Mississippi State Hospital for the Insane, announces that he will commence the removal of the 2600-odd patients at the old Jackson plant of this institution to the new plant recently completed at Whitfield, in Rankin county, on March 1st, and that it will require approximately ten days or two weeks to complete this moving of the inmates, together with the furniture and equipment. The new plant, which consists of seventy-eight large and modern appointed buildings, is the largest plant of its kind in the world, and throughout the course of its construction has attracted scores of visitors and committeemen from other states and even from foreign countries, to look it over and make reports of its appointments.

Governor Conner has proposed a committee whose duty it will be to study the problems of the homeless ex-service men, and to study the matter of homesteading land for them, and to plan for legislation along these lines. The committee designated by the Governor is as follows: Dave Crawley, Kosciusko; Robert D. Morrow, Jackson; Forrest G. Cooper, Indianola; James A. Blount, Charleston; Ben F. Hilburn, State College; D. R. Robinson, Batesville and J. A. Travis, Meadville. All are ex-service men.

The State Highway Department last week awarded contracts for construction of an underpass and roadway and also bridges in Yalobusha and Rankin counties; an underpass on No. 51 in DeSoto county, and road construction on the same road; road and bridge construction in Rankin county in addition to that already mentioned. Contracts amounted to \$250,000.00. The Commission will meet again February 28th.

According to the daily report issued by Chairman Stone of the State Tax Commission, at the close of business Wednesday, February 20th, the aggregate collections for the first fifty-one days of 1935 from the several sources, exceeded those for the same period of 1934 by \$140,000.00 in round numbers. To increase the Sales tax contributed nearly \$100,000.00.

Governor Conner, Agricultural Commissioner Holton, and Adjutant General Grayson were among the State officials who attended the "Tung Oil" meet at Whitworth College "tung orchard" near Picaune last week on the occasion of the formal presentation to the College of 1000 acres of land by L. O. Crosby, Mayor of Picaune. This land to be planted in Tung Oil trees, which will be donated largely by Lamont Rowland.

Forty-two counties, in all, have now been authorized to put their unemployed back at work, after being taken off February 1st according to State ERA director C. B. Braun.

The Record of 1935 for filing of charters, both domestic and foreign, in the office of Secretary of State Walker Wood, continues to surpass all January and February records for the past few years. There was a total of seventy-nine charters filed during the month of January, and up to close of business February 21, there was a total of sixty-seven, with seven days more to go. With this record so far, Secretary of State Wood has reason to expect the total number for the month to reach eighty or more, and February is a short month, too.

The Board of Trustees of the University and Colleges closed a lease last week with the Gulf Refining Co., for the mineral rights for a period of two years, on 6000 acres of University land in Stone County, the consideration is \$3000.00 and drilling is to commence in four months and continue through the lease term.

Governor Conner has arranged a "tentative docket" for his proposed early visit to Parchman penitentiary and investigation of the "forgotten man." The present chief executive cannot be considered as a "pardoning governor," as he has pardoned comparatively few prisoners during his term of office, however, he has ascertained that approximately 150 pen prisoners have served already from ten to thirty years, and many of these, having had no relatives or friends to plead for them, have been entirely forgotten. Some have made model prisoners, and probably deserve executive clemency, and it is the intention of Governor Conner to give such cases careful consideration.

"Fortune favors the brave."  
"Not if the brave buy wildcat stocks."

## Lady Says CARDUI

Eased Pain In Side

Cardui helped an Oklahoma lady, as described below, and many others have been benefited in a similar way. "I had a hurting in my side every few weeks," writes Mrs. Bill Stewart, of Denver, Colo. "I had heard of Cardui and started taking it. It stopped my hurting and built up my strength. I took 11 bottles and I sure felt better." Try Cardui for pain, cramps, nervousness due to a run-down condition. The hands of women busy Cardui benefited them due to a low red blood count. Consult a physician.

### LOST OPPORTUNITIES

(West Point Times Leader)

BECAUSE of antagonism on the part of Senator Huey Long and the State administration he is said to control, the Standard Oil Company announces that it will scrap its \$15,000,000 refinery at Baton Rouge and transfer its activities to another state.

Gulfport is making a strong bid for the enterprise, and Mobile is another active contender.

Discussing this situation, the Port Gibson Reville says: Both the Standard Oil Company and the Great Southern Lumber Company, wanted to locate in Mississippi, the first named at Natchez and the Southern somewhere in the Southern part of the state.

But Mississippians were "agin" "trusts" and "combinations." Its leading politicians preached that these money sharks would devour the people and their "natural heritage."

The Standard located at Baton Rouge and built a fifteen or twenty million dollar plant, employing thousands of people, and paying a vast amount in taxes.

The Southern built at Bogalusa where it has an enormous plant and a paper mill. Its weekly payroll reaches far into the thousands. It built dummy railroads and hauled out Mississippi's finest pine forests.

Even yet, a very large part of the state's population does not realize what was lost by prejudice. These residents had rather live in shacks and get a government dole than see the state's resources developed, so great is their antipathy toward wealth.

No; the Standard won't come to Mississippi. It hasn't forgotten, and it knows, too, that the prejudice here against wealth is just as great as it ever was, and that any scheming politician can fan it into flames at a moment's notice.

There is no denying the fact that Mississippi has lost money opportunities because of the activities of political demagogues, and that manufacturers have avoided the State on that account.

But we believe this condition has changed completely, and that capital may now come to Mississippi without the slightest fear of being hampered and harassed by fool laws.

## THIS EDITING JOB

(West Point Times Leader)

EDITORS who complain about overwork are simply bidding for public sympathy. Editing is the easiest job in the world. All editors have to do is sit at their desks day after day, smoke good cigars, discuss politics with callers, and pass on to the linotype operators items such as these:

"Mrs. Jones, of Cactus Creek, let a can-opener slip last week and cut herself in the pantry."

A mischievous lad of Pickettown, threw a stone and struck Mr. Pike in the alley last Tuesday.

"Joe Doe climbed on the roof of his house last week, striking himself on the back porch."

"While Harold Green was escorting Miss Violet Wise from the church social last Saturday a savage dog attacked them and bit Mr. Green several times on the public square."

"Isaiah Trimmer, of Running Creek, was playing with a cat Friday, when it scratched him on the Veranda."

"Mr. Ford, while harnessing a bronco last Saturday was kicked just South of the corn crib."

## TRIBUTE TO WEEKLIES

THE Christian Science Monitor pays tribute to weekly newspapers in the following article taken from a recent issue.

Turning from city newspapers to small town press exchanges that come to the editor's desk is like stepping from the slums, full of vice, into an old-fashioned garden sweet with lavender and thyme and the scent of perennial flowers. The pages of the big dailies are so full of murder, thievery, immorality, and selfishness that the better news is obscured by these glaring shatterings of the Decalogue. One puts the papers aside with a feeling of depression and heartache that the world is so full of terrible and unhappy things.

Then picking up the papers that record the happenings of the little towns around us, one gains renewed faith in life.

Here are set forth only that which uplifts a community—the activities of the business men, the church items, the happy social gatherings of the people, the marriages, births and deaths, farmers' items, and all the thousand and one daily common people who are really the foundation of this broad country of ours.

Sometimes people speak lightly of the country newspaper, but it is one of the most potent and uplifting factors in our national existence.

## THE DEFICIT

Announcement that the Treasury expects to squeeze through until June 15th by borrowing \$25,000,000 weekly indicates that the deficit at the end of the present fiscal year will be around \$4,000,000,000, or about \$800,000,000 less than estimated by the President in his budget message. Of course, other sums will be borrowed to redeem outstanding issues but the sum mentioned is expected to cover the cash needs for the period.

## With The Movies And Film Folks

LAST week we mentioned that another cycle of crime pictures was in the making. Following the success of Columbia's "The Whole Town's Talking," Paramount announced "Federal Dick" and brought "Dr. Socrates" from W. R. Burnett; Warner Brothers has "G Man" as their potential offering; Metro is said to have at least one, and Radio is reported to be looking for one; United Artists has scheduled "Washington Correspondent."

Conrad Nagel, who has been given the leading role in "Order Please," Metro, is said to have preferred the role of leading man to that of star, because he felt that the popularity of stars was too short-lived, while that of a leading man lasted longer at substantial salaries.

United Artists has revealed that Mary Pickford and Charlie Chaplin plan to produce one or two pictures a year, featuring players other than themselves.

It is rumored that Universal may shift its projected production of "The Great Zeigfeld" to the Metro-Goldwyn-Mayer lot, if negotiations now under way are complete. Story, cast, sets and costumes will be taken over, it is said.

Crichton Chaney, who recently had his name changed to Lon Chaney, Jr., appeared in James Barton's first starring picture. Crichton now feels that he is capable of carrying on his father's name in the motion picture business.

While making their latest film together, Ginger Rogers and Fred Astaire danced before full-length mirrors, actually seeing themselves as others see them. These two stars share honors with Irene Dunne in "Roberta."

Marion Talley, who deserted the Metropolitan Opera Company for life on a Kansas farm, is in Hollywood where she is now taking tests for a motion picture role. If the tests are satisfactory, she will be given a contract by one of the major companies.

Lily Pon's first picture under her present contract is reported to be "Love Song." She is to report in Hollywood about July 1st to begin work.

Other celebrities who are said to be about to make their film debut are Ty Cobb and Babe Ruth. They are being sought to appear in the film version of "Alibi Ike," a baseball story, in which Joe E. Brown, comedian, has the leading role.

Word comes from Philadelphia that "Leo the Lion," MGM's live trade mark which roared at picture goers at the beginning of each film from this studio, is dead, apparently from old age of twenty years.

Max Renhardt, theatrical producer, now in Hollywood for the production of "Midsummer Night's Dream," announced his opinion of the "great" of the films. He selected Charles Chaplin as "The greatest artist of them all," and also listed James Cagney, Charles Laughton, Katherine Hepburn, Leslie Howard, Greta Garbo, Marlene Dietrich, Paul Muni, Bette Davis, Robert Donat, Kay Francis and Edward G. Robinson.

Ann Harding and Franchot Tone will be together in "The Flame Within."

Robert Flaherty has sailed for In-

Hollywood has added another member of European nobility to its rank when Countess Olive de Maigret was given a film contract. The Countess took a screen test at the insistence of Maurice Chevalier.

Five months ago Pinky Tomlin thumbed his way from his home town of Durant, Oklahoma to Hollywood with his song, "Object of My Affections," under his arm. Recently Pinky drove back home, chauffeur and all, and the whole town turned out to greet "the boy who made good."

### "BRIGHT EYES" IS CALLED IDEAL TEMPLE FILM

### Shirley Said to Have Finest Role in Thrilling Fox Picture

Shirley Temple—most sensational film discovery of the year—will be seen at the A. & G. Theatre, beginning today, in her latest and, according to all advance reports, her best Fox picture, "Bright Eyes."

"Bright Eyes," was conceived as a Shirley Temple vehicle by David Butler, who directed the film. The story was suggested to him, it is said, by a real-life incident occurring at a commercial airport near Los Angeles.

Relating the idea to Sol M. Wurtzel, Fox Film producer, he found the latter at once fired with enthusiasm. Together with Edwin Burke, famous screen writer who adapted "Bad Girl" and other hits, Butler was promptly put to work by the delighted producer, setting the idea down on paper. Then its adaptation was handled by William Conselman. Apparently it represents an entirely new type of vehicle for the remarkable child player.

Once more James Dunn is cast as Shirley's leading man—a fact which is said to have enchanted the young star. Jimmy appeared as her daddy in "Stand Up and Cheer" and "Baby Take a Bow," and Shirley has eyes for no one else, they say, when he is on the set.

Preview audiences in Hollywood are said to have greeted "Bright Eyes" as the finest and most heart-warming picture in which Shirley has been seen. A human and compelling story, that at moments brings the tears, is combined with thrills that will chill the spines of any audience. So runs the advance report. The supporting cast includes Jane Darwell, of "White Parade" fame; Lois Wilson, Judith Allen, Theodore von Eltz, Dorothy Cristy, Jane Withers, Charles Sellon Brandon Hurst and Walter Johnson.

School Visitor—So you like your geography, do you?

Boy—Yes, it's the only book that's big enough to hide a detective story.

The Daughter—Of course, I threw him over, but I don't intend that horrid little Gittish girl to get him.  
Father—Didn't you know when you threw him over that girls can't throw straight?

## COLORED SCHOOLS OF HANCOCK CO. HOLD FIELD MEET BAY CITY

### Event at Valena C. Jones School Last Friday—Local School Led With 89 Points

On Friday, March 1, the Annual County Field Meet for the Negro Public Schools was held at the Valena C. Jones School, Bay St. Louis. This had been a regular event, but for the past years had been discontinued. Practically all of the Negro Public Schools took active part. The county schools made an exceptionally good showing in attendance. About 400 persons were present.

Activities for the day started with a parade and a short program. The County Supt., Mr. A. S. McQueen, gave a short address. All athletic events were interesting. At the conclusion, Bay St. Louis school led with 89 points, Kiln was second with 41 points, and Logtown, was third with 25 points. Pearlton school won the spelling match. They expect a bigger and better field meet next year. This meet was under the auspices of the Hancock County Association for colored teachers.

At the beginning of the school year this association sponsored a three point program, namely: A county wide test of the children; an annual field meet; an attempt to have at least one state recognized school in this county. So far they have accomplished the first two, but the third has not been realized. They hope in the near future they can say that all of their plans were accomplished.

## WASHINGTON NOTES

### BANS PLANES

When an unidentified pilot flew over the White House recently at a low height, the Department of Commerce issued an order making it illegal for aircraft to fly over the White House or central Washington.

### CIVIL RESERVE

Secretary of Commerce Roper would establish a civil service reserve corps, the same general idea that provides the Army and Navy Reserve corps, in order to provide a class of citizens peculiarly fitted for the complex job of governing.

### WEAK FRAME BLAMED

A sharp gust of wind, straining a "structurally weak frame" wrecked the dirigible Macon, says the naval board of inquiry. While Secretary Swanson opposes building another ship, Lieut. Commander Herbert Wiley, skipper of the ill-fated airship, hopes that another will be built immediately. "They are of inestimable value as scouts," says he.

### TIN MONOPOLY

The United States, which uses half of the world's production, produces practically no tin. Hence, interest attaches to the report of Chairman McReynolds, of the House Foreign Affairs Committee, that seven governments had a monopoly and had arbitrarily more than doubled the price.

### U. S. OBJECTS

The United States, at Geneva, insists that civil and military aviation be sharply distinguished in all control measures. It has been made plain by Hugh R. Wilson, our Minister to Switzerland, that the United States will not permit European war fears to interfere with the development of commercial aviation in this country.

### MONOPOLIES

Considerable talk will be heard about monopolies and the anti-trust laws before Congress ends this present session. Just what legislation will result is not yet clear.

### VOTE BIG ARMY

The House, without a record vote, appropriated \$378,734,488 for the War Department, one of the largest outlays in peace-time history. After voting it down, 97-66, the members reserved themselves and left to the President's discretion the question of expanding the enlisted strength of the Army to 165,000 men, an increase of 46,250.

### FOOD PRICES UP

Retail food prices are beginning to worry the experts the index at the end of January was 119.8, the highest since May, 1931, and fourteen points higher than the same month in 1934.

### BIRTH CONTROL

Margaret Sanger, leader of the Birth Control Movement, has begun a drive to secure a million signatures to a petition for the enactment of such a measure by Congress.

## LEETOWN NEWS

Mr. and Mrs. John S. Rester had a narrow escape from serious injury when their Chevrolet sedan was overturned in front of Salem school Wednesday afternoon as Mr. Rester as trying to avoid hitting a large hog in the highway. Whether something went wrong with the steering gear or whether it was hitting the hog that overturned the car is not known, as Mr. Rester believed he had succeeded in missing the hog until after extricating himself from the car. Although considerably shaken, Mr. and Mrs. Rester were not injured, and the car was not damaged beyond a bent fender and top. No glass was broken. The hog was beyond repair.

## THE ECHO'S COOKING CLASS

HAVE you ever thought about how many ways you can fix crabmeat? It may start off a tasty breakfast omelet, reappear in many luncheon dishes, emerge in a delightful variety of afternoon tea dainties, grace the most formal dinner, and even pop up at supper. Try these recipes, perhaps they will spur your imagination to create some new ones of your own.

### Crabmeat Omelet

1 can crabmeat  
4 eggs  
4 tablespoons milk  
½ teaspoon salt  
1-8 teaspoon pepper  
1 tablespoon butter

Beat eggs slightly, just enough to blend the yolks and whites, add milk, salt and pepper. Melt butter in frying pan then add egg mixture. As this cooks, lift the cooked portion with a spatula, leaving the uncooked portion run underneath. Continue until the whole omelet is of creamy consistency. Cover with small pieces of flaked crabmeat; turn up heat for a few minutes so that omelet can brown. Fold and serve on hot platter. Sprinkle with parsley finely chopped.

### Crabmeat and Curry

1 can crabmeat  
2 tablespoons butter  
1 teaspoon finely chopped onion  
2-3 tablespoon curry powder  
1 cup chicken broth  
3 tablespoons flour  
Seasoning

Cook onion in butter for three minutes. Add flour mixed with curry powder, add chicken stock. Bring to boiling point and add crabmeat and season to taste.

### Crabmeat and Corn

1 can crabmeat  
1 cup milk  
2 tablespoons butter  
1 teaspoon salt  
1 onion chopped  
Cayenne pepper  
2 green peppers, chopped  
1 egg yolk  
1 can corn  
Toast or crackers.

McQUAY-NORRIS "TEAR DROP" CAR WAS IN  
BAY ST. LOUIS, MONDAY ON TEST RUN

Citizens of Bay St. Louis Monday had their first glimpse of a "Tear Drop" automobile as it whizzed through local streets in a test of improved piston rings and other motor parts.

The car was driven here at the request of the local jobbers of products manufactured by the McQuay-Norris Mfg. Company of St. Louis, and was parked in front of The Echo Bldg., attracting considerable attention.

Six of the "Tear Drop" cars, called that because they resemble

tear drops, are in various parts of the country testing "Super-C" and Hi-Unit Superoyl piston rings relative to oil and gasoline consumption.

The cars were specially designed as to body, but are built on chassis of popular priced automobiles. Design of the car permits a speed-increase of from 10 to 15 miles per hour.

There are 15 instruments on the panel which provide the test engineer in charge of the car with a complete check on the car's performance at all times.

MRS. RALPH A. SELLIER  
LAID TO REST AT ST.  
MARY'S FRIDAY P. M.

Excellent Lady Passed away  
Thursday Night, Following  
Long Illness

Mrs. Lillie Cuevas, wife of Ralph Sellier, resident of Bay St. Louis for the past fourteen years, died at the home of her daughter on Thursday night of last week, February 28, at 10:40 o'clock. Mrs. Sellier had long been ailing but about. However, recently her condition did not improve but took a turn for the worse and she finally was stricken and confined to her bed for several weeks.

She passed away as she had lived—peacefully and beautifully, fully fortified with the sacraments of her church. Funeral took place Friday afternoon from the residence of Mr. and Mrs. Ben Hille, Front and Washington streets, and from Church Our Lady of the Gulf. Interment was at St. Mary's cemetery, near the resting place of her parents.

Mrs. Sellier was a native of Fenton, this county. She was 47 years old, the youngest of her parents' children. She was a sister of Mrs. (Dr.) A. A. Kergosien, three brothers, Wm. A., George A., and Victor C. Cuevas. She also survived by one daughter, Irene, wife of Ben Hille, of Bay St. Louis, and two grandchildren.

The last resting place was marked by a profusion of flowers, an attestation of the esteem and general favor of all who knew her, the funeral largely attended.

Mrs. Sellier was a remarkable woman in more ways than one. She was a doer and builder, ever interested in forces that stood for construction and progress. She was identified with many projects of church and charitable endeavor. She was well read and traveled. Mrs. Sellier was posted on current events and lent a lively interest to every subject that stood for the amelioration of her fellowmen. Her passing away removes a good woman from the community, a progressive resident. From her home one whose absence will be keenly felt. Of a pleasant disposition and cordial personality friends will miss her as well.

—Workmen are renovating and building a rear addition to the beach structure owned by C. C. McDonald and formerly occupied by H. Grady Perkins who was then in the insurance business. Frank Martin, well-known resident, is preparing to open therein a refreshment resort, featuring beer and due to his personal popularity and well-known ability to cater and serve bids fair to instantly prove popular.

—The City is to be commended for placing a telephone at the head of Main street for use of the police force, each member of which holds a key to the place of enclosure. After a late hour no phone is accessible, outside of the City Hall and for this reason this one was installed. It is used to call additional police help. The Mayor for information or to be advised and would prove a worth while factor in the event fire was discovered.

—Lorraine's Flower Shop at Pass Christian offers quite a variety of garden plants ready for the soil and preparatory to the spring. Mr. Adam offers well-rooted stock of petunias, marigolds, calendulas, nasturtiums, verbenas, etc. This is an opportunity to stock the local gardens devastated by recent freezes. Cost is small and so much value and ultimate satisfaction in result. Visit the nursery at Pass Christian and make own selections.

—Mrs. (Dr.) C. M. Shipp returned a few days ago from a trip to Tampa, St. Petersburg and other sections of the Florida West Coast, during which time she visited school mates and other friends. Mrs. Shipp made the trip by auto with Mrs. J. E. Goldman and son, Lander Goldman, who had taken Mrs. Goldman's mother, Mrs. Frank Adams, back to her Tampa home, after a visit here of some time. Mrs. Adams resides with her son at Tampa.

COURT OF AWARDS  
BAY GIRL SCOUT  
TROOP HELD FRIDAY

Miss Elizabeth Junken, of National Girl Scout Staff, N. Y. Present For Occasion

Miss Elizabeth Junken, of the National Girl Scout staff, New York, was in Bay St. Louis on Friday, March 1st.

Miss Junken who is a graduate of Goucher College and has her master's degree in psychology from New York University, was engaged for some time in young people's work in connection with the New York City churches.

In 1933 Miss Junken joined the Girl Scout national staff, and received her training in Camp Edith Macy, Briarcliff Manor, New York. Later she was appointed to represent the national field division in the Dixie Region which includes Mississippi, Alabama, Arkansas, Tennessee and Louisiana.

Afternoon With Mrs. J. A. Evans

Miss Junken met with the Troop Committee on Friday afternoon at the home of Mrs. J. A. Evans.

"What the young people of America need," said Miss Junken is a sym-

pathetic attitude toward their interests.

"Every Girl Scout Troop—and there are now 12,997 in the U. S. A.—was started at the request of some child, and there could be thousands more, if older people would help in giving girls what they want and need.

Girl Scouting, takes girls just at the age when they are getting free of their childish dependence on their parents and beginning to adventure with life outside the home for the first time.

The Girl Scout leader, is ideally fitted, by reason of her training, to direct the girl's emotional energy into the right channels, and to introduce her to the great variety of useful and delightful activities which have a natural charm for the teenage girl.

"There is a constant demand on the part of the girls for more Scouting," Miss Junken concluded, "and the women of the country are now aware of the fact that here is something wholesome which they can give their juniors with little effort. Even if they cannot take on a troop, which really requires very little time, they can serve on the troop committees or on the councils which support and promote the work. We could have thousands more girls enjoying the program, and incidentally relieving their elders' minds about their behavior, if those elders would contribute a little of their interest and energy."

## An Outstanding Paper

From the Pass Christian Beacon—

THE Sea Coast Echo, founded at Bay St. Louis by Chas. G. Moreau, 44 years ago, and continuously edited and published by its energetic and successful founder, is one of the most attractively, typographically, newsworthy and forcefully edited country weeklies in the state. He deserves the splendid record of his paper, for he has devoted the best years of his life to his "labor and love," and earnest efforts well merit the generous support of the people of his city and county. We congratulate him upon the high class paper he has built up.

CARDUI  
FOR  
WOMEN

Heck—What were you and your wife quarreling over?  
Peck—Well, she said a certain woman was beautiful and I made the mistake of agreeing with her.

Father: "You take accounting at school, don't you, son?"  
Son: "Yes, sure."

Father: "Well, how can you account for the brassiere and panties you sent home in your last laundry?"

Mrs. Knagg—The modern woman would never stoop to the low political tricks of the men.

Mr. Knagg—The only reason she wouldn't stoop would be that she was afraid of ripping something.
